

Request for Quotation – Clarification Addendum

Date: 13 April 2021

Lightbox Signage and Management Services, Vivid Sydney – Original Request:

Destination NSW is seeking an itemised quotation for the provision of Lightbox Signage and Management Services for Vivid Sydney 2021, with an option for Vivid Sydney 2022 (option to be exercised at Destination NSW's discretion. The successful contractor must cater for this).

ID	Clarification Request	Clarification Response
1	What is the thickness of the Perspex / Acrylic that the Lightboxes are made from?	Approximately 4 - 5mm
2	Where are the Lightboxes located for pick up purposes?	Rosebery NSW
3	Is there the possibility of storing Lightboxes in our own warehouse for skinning and then rolling them out to designated sites?	Yes, this is possible, however, your insurance must cover for any damage and asset replacement value in your control.
4	Are we required to do anything for the bottom, blue area or will previous vinyl be left on?	The bottom blue area forms part of the overall substrate and will be required to be printed
5	The total size of the backlit area is specified as 1500mm high which seems to include both the white and red areas. The job is specified as 4 main decals per lightbox (white area) and 2 numbered decals per lightbox (red area). Are we only providing a small patch for the number or are we wrapping 2 full faces or all 4 full faces of the red area with fresh prints?	Please allow for a small patch for the number separate to the four (4) full faces. Destination NSW requires the ability to remove and replace number decals at any given time
6	Are the red and white areas separate decals with different vinyl requirements? Brief specs them as separate decals however if both use the same vinyl it seems they could be done as one print? 4 prints at 400x1500mm per lightbox...one for each face.	Yes, this is possible
7	What are the individual heights of the white and red areas?	Artwork with specified heights will be provided to the successful contractor
8	Were the lightboxes stripped and cleaned after last year or do the units still have last years' decals on them?	Yes, Lightboxes were stripped and cleaned following the 2019 event, however there may be the need for minor spot cleaning
9	Can we move the units to our site for wrapping before installation?	Yes, this is possible
10	What is the distance from lightboxes to power outlet?	Please allow for up to 100m extensions
11	Does the cable need to be covered with rubber floor cable protector for this full	Yes, Destination NSW will work with the successful contractor to determine where and how many cable tray covers are needed

	distance? If not, how much of the cable needs to be covered?	
12	If power leads are purchased new, do they all require test and tagging?	Yes
13	Are we test and tagging only provided power leads or the unit transformers too?	Yes
14	Will artwork be provided, or will we be creating artwork?	Artwork will be provided by Destination NSW
15	How many unique artworks will there be? I.e., will each lightbox have the same artwork?	Each Lightbox will have the same artwork design, however each will have unique copy
16	Of the approximately 20 units requiring repairs do any require welding steel work?	This will be confirmed with the successful contractor, however, please allow for the possibility of welding steel work within your response to the RFQ
17	If the acrylic is cracked or damaged, it is advised that these be replaced fully. Is there any information on how many this might be and what acrylic material was used? (4.5mm opal acrylic?)	Please allow for up to five (5) repairs due to cracked acrylic The acrylic is approximately 4 - 5mm thick
18	Does Destination NSW require ongoing storage after the Event?	No, the successful contractor will be required to return all Lightboxes to the Destination NSW storage location in Rosebery NSW following bump out
